

Design apps that really help me...

Fiverr

Worldwide online freelance services. From copywriting to artwork, you can get the job done from as little as \$5.

Canva

Making design simple for everyone. You can create designs for web, print, blog graphics, presentations, social media and so much more.

Wordswag

Great if you are active on social media. Simply take an image, open up the app, add suitable text, save and upload straight to the platform of your choice.

Survey Monkey

A great way to send surveys or feedback forms to your network to discover more about them.

Unsplash, Gratisography & Pexels

These are free royalty-free images to use in your marketing and promotion, so you don't use the same stock images as everyone else.

Marketing apps that really help me...

Hootsuite

Simple social media management tool, manage multiple networks, profiles and measure your results with an easy to use dashboard.

Rev

Online audio transcription, video captions and document translation services. Fantastic for re-purposing content from videos to mimes to blogs.

Zoom

If you have a lot of conference calls, deliver 1-2-1 remotely or arrange webinars, this is for you. Simple and easy to use, with screen sharing options and robust performance

Textlocal

Use this service if you're speaking on stage and want the audience to opt into your database by texting a specific word & 5 digit number.

Camtasia

Video editing software for MACs and PCs.

Anchor

The easiest way to start a podcast record a high-quality podcast, host unlimited episodes & distribute everywhere.

Financial apps that really help me...

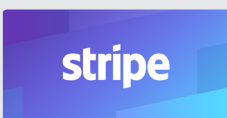

Receipt Bank

Perfect if you hate having receipts everywhere and your bookkeeping isn't getting done promptly. Simply open the app, take an image of the receipt and it gets uploaded into your system for payment.

Xero
